

LUBE PICKUP SKID

230 GALLON CAPACITY | UP TO 4 SERVICE FLUIDS

Shown with Optional Air Compressor

COMPACT FIELD FLUID SERVICE

The Thunder Creek Lube Pickup Skid (LPS) brings core preventative maintenance fluids into a compact format designed to fit in the bed of a pickup or service truck.

The LPS is a good fit for crews that need smaller scale, organized service fluid capability tied directly to a specific truck or team. It can be equipped with up to four tanks with systems available for oil, coolant, reclaim, top-off diesel, and grease.

MODEL SPECIFICATIONS
